August 13th 1964

Prof. J. Trueta
Nuffield Orthopaedic Centre
Headington / Oxford

Dear Professor Trueta, -

the news, I am afraid, is none too good. There had been severe pains in both the left knee and the left foot for a long time before I finally consented to have any x-rays made. Then the deed was done and the pictures clearly showed a severe "Sudeck" in the knees as well as in the foot. This, of course, is extremely tiresome as it prevents me from duly exercising my hip. I am permitted a certain amount of very mild exercises in the pool and I may sit out in the chair. But no weight whatsoever must be put on either leg; nor is it foreseeable just how long this sad state of affairs will continue to exist.

I am being treated with cold Fango and wonder whether there is anything you could and would suggest in addition. For the time being I am off Stromba but the 20 days intermission will be over by August 23rd.

I should be very happy to hear from you and am

with kindest regards

yours very sincerely,
